

The Art of Living // Template option 3 // blank

*work at the intersection of prose and poetry on “the art of living”
however that might be interpreted as a phrase and in the actual work*

Place this template against a window or on a flat piece of glass with a light shining through. Place a blank sheet of paper over this template (the actual book will be 5x8”). Write your “art of living” piece using a **black** roller ball pen or other smooth pen (consistency in the weight of the pen is very important in digitization). Use this template as many times as you need for your piece if it will span multiple pages. Scan your piece, at least 300dpi preferably 600dpi, label with your name and title if applicable, and email it — with a short bio — to poetose.press@gmail.com. A TIF file is best, but JPG and PDF work too. You can also snail mail work, just be in touch about the address. Thank you!
